04 TRØPER

16 KØMBAT

30 RÅIDER

ONE
HELMETS™

Worn and developed by world-class riders like Andrew Short, Ryan Dungey, Sean Hamblin, Andrew McFarlane, and Tommy Hahn, the Trooper has seen the harshest elements the sport of motocross can deliver.

Constructed from a Kevlar reinforced fiberglass shell, the Trooper is both remarkably light and precisely balanced, both variables that emphasize comfort while minimizing "on bike" fatigue. Numerous venting chambers continually circulate air throughout the Trooper keeping you cool throughout those long motos.

The EPS inner shell is fitted with a removable moisture-wicking Savoire suede liner system, taking comfort to the next level. Custom graphics perfectly compliment the advanced technology and style.

Like any other soldier, a motocross warrior depends on his equipment to withstand the rigors of battle while he straddles the line between the limits of man and machine. Utilizing the same development practices as its wingman the Trooper, the Kombat is crafted with advanced materials providing you all the ammo you'll need at a value that will allow you to come in under the radar.

A lightweight PC Alloy shell provides the optimum in strength and shock absorption, while a unique and carefully crafted EPS inner shell is fitted with a moisture-wicking Nylex liner system. Strategically positioned venting channels maximize airflow allowing you to maintain a cool head even in the heat of battle. Cutting edge style and graphics separate the Kombat from the pack, making it the perfect choice for new recruits and value-driven motocross infantrymen.

ONE INDUSTRIES™ HELMETS

32
RAIDER™ CODE
BLACK / WHITE

33
RAIDER™ DIGITAL
NAVY / BLUE / WHITE

One Industries is proud to introduce the Raider. Specifically designed from the ground up to meet the needs of aspiring young riders, the Raider is a helmet of incredible detail, boasting numerous technical features. Unlike other kids' helmets that are scaled-down versions of the adult models, the Raider was designed specifically to be One Industries' one and only youth helmet.

34
RAIDER™ TORMENT
RED / BLACK

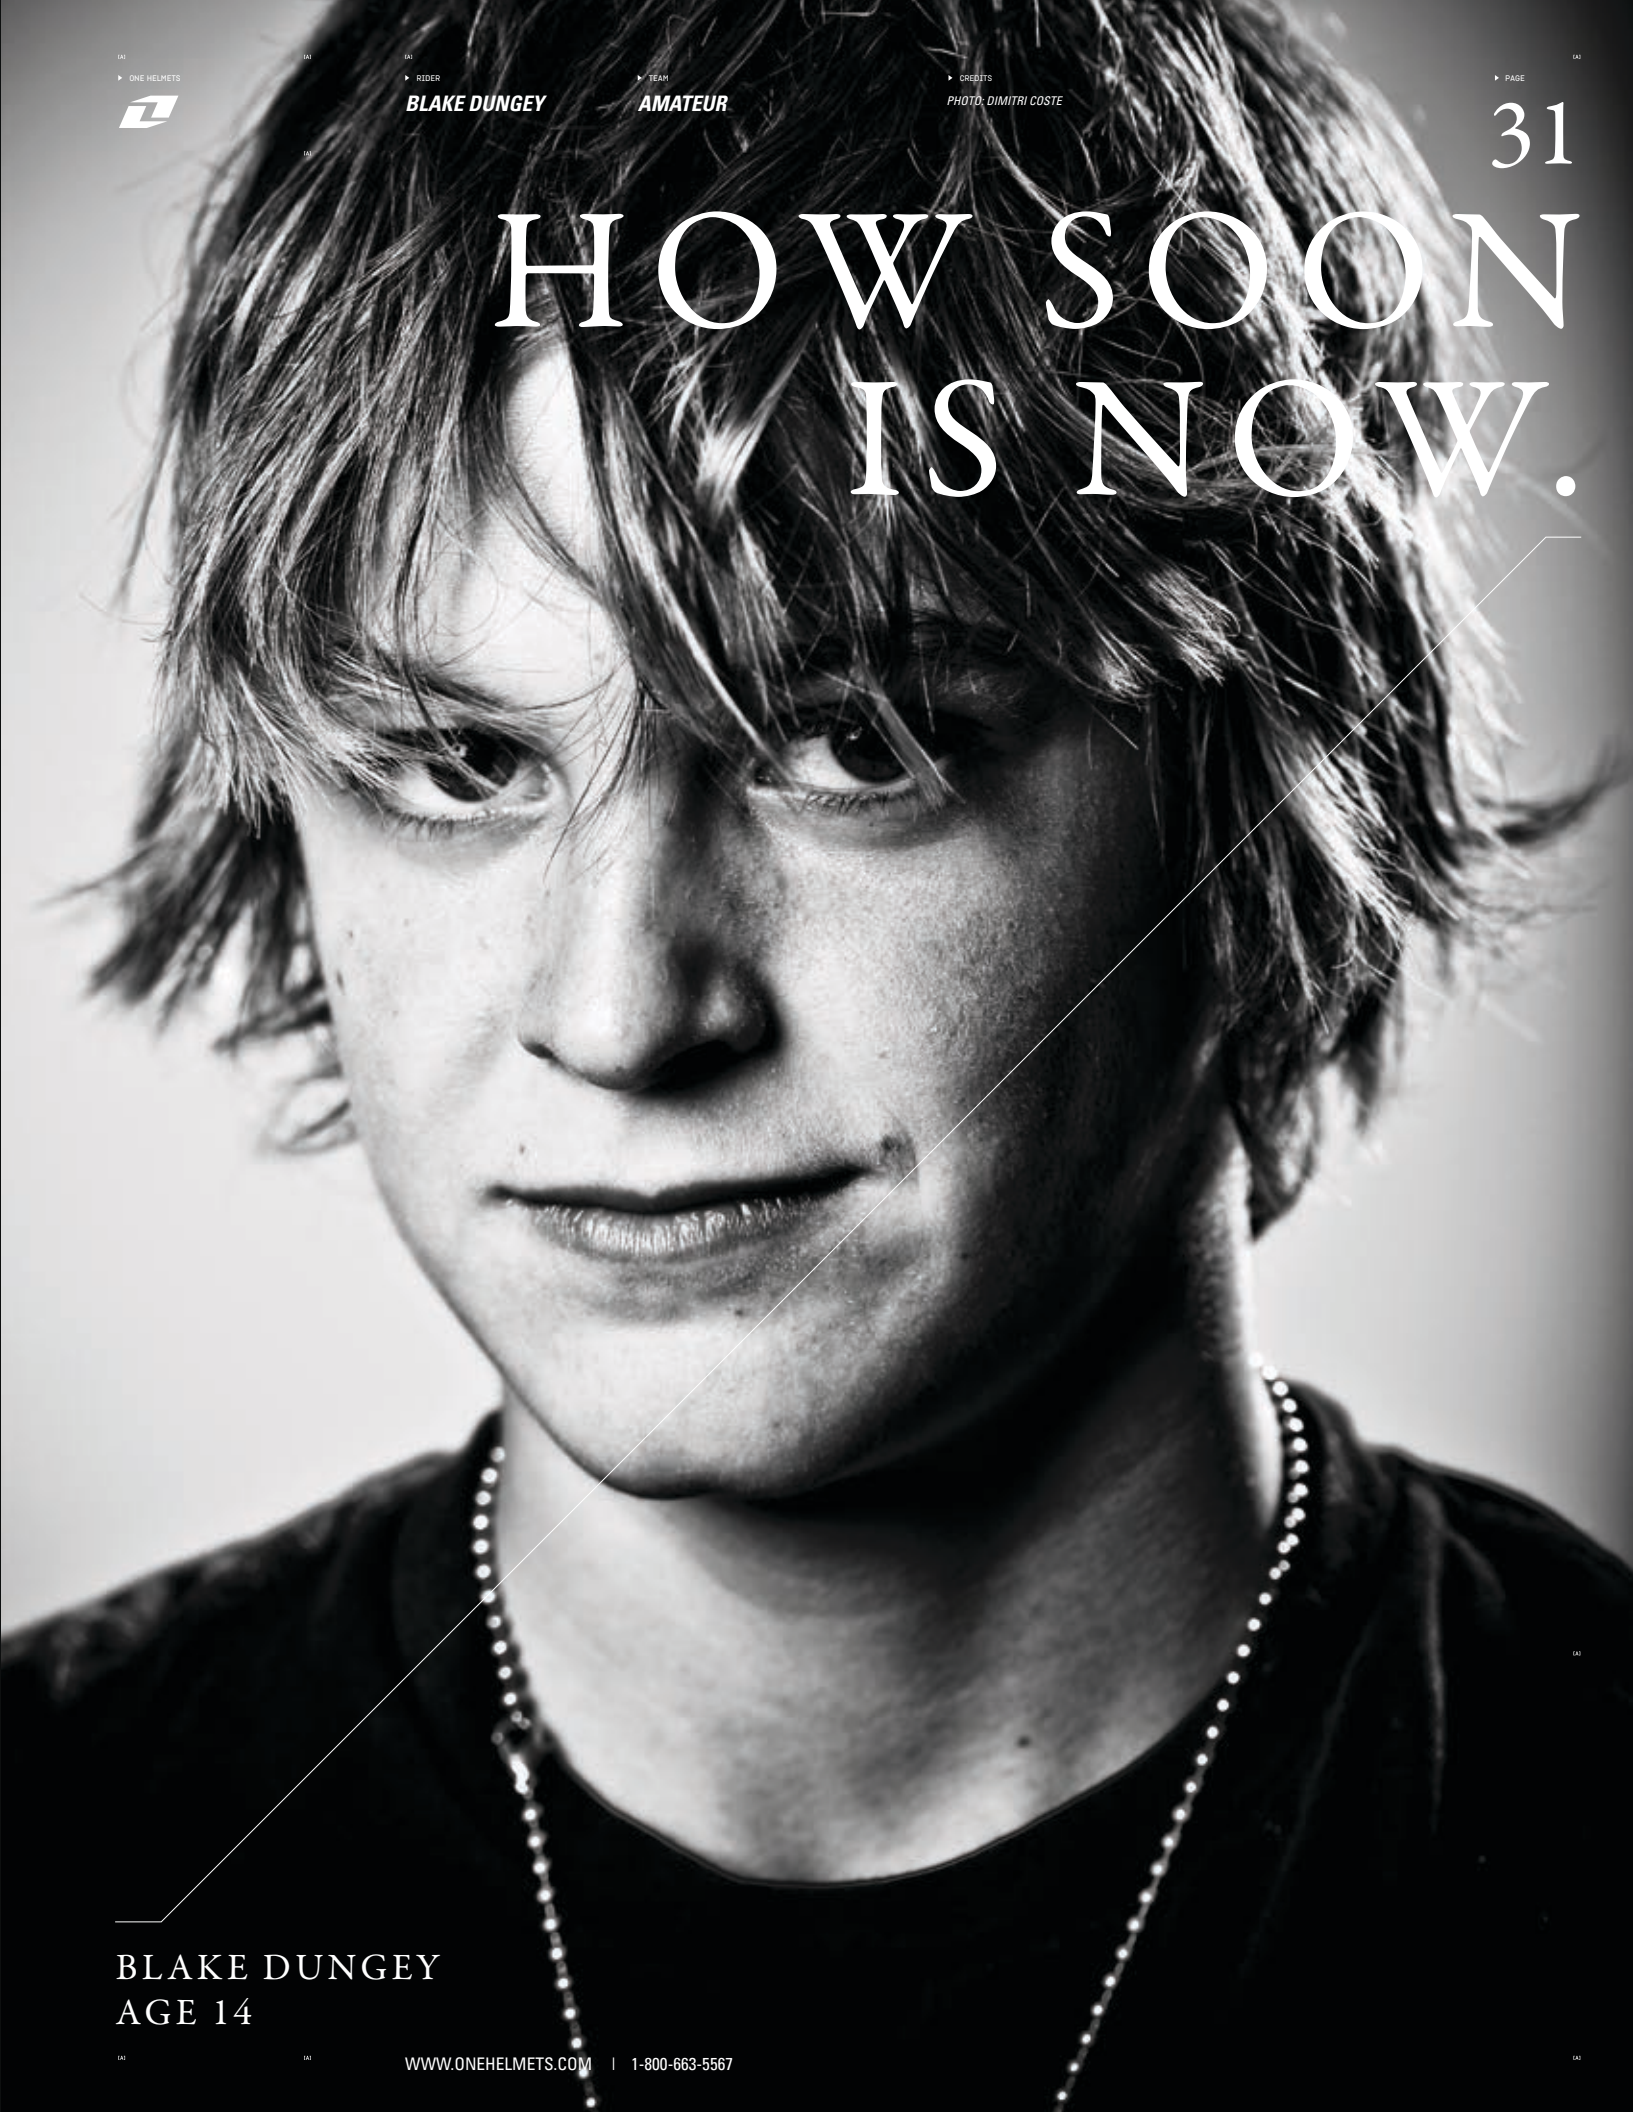

Featuring a PC Alloy shell with super-sleek lines and flowing streamlined ridges, the Raider looks as trick as it truly performs. Complete with a removable moisture-wicking Nylex liner and venting channels that optimize ventilation and over-the-head airflow. Further technically advanced details include large visor screws making it easy for small hands to adjust the visor, a fully vented mouthguard, and meticulously designed and crafted eyeport beading.

The Raider is a testament that form and function can coexist in a package that embodies the progressive style demanded by young motocrossers.
